1. Policy

1.1 Policy Statement

Under the Education and Care Services National Regulations the approved provider must ensure policies and procedures are in place for the administration of first aid (Reg. 168) and take reasonable steps to ensure policies and procedures are followed. First aid can save lives and prevent minor injuries or illnesses from becoming major. The ability to provide prompt basic first aid is particularly important in the context of an out of school hours service where Educators have a duty of care and obligation to assist children who are injured, become ill, or require support with administration of medication.

1.2 Purpose

Our OSHC Service has a duty of care to provide and protect the health and safety of children, families, educators, and visitors of the Service. This policy aims to support educators to:

- Preserve life
- Ensure the environment is safe and other people are not in danger of becoming ill or injured
- Ensure that ill or injured persons are stabilised and comforted until medical assistance intervenes
- Relieve pain if possible
- Monitor ill or injured persons and promote recovery
- Provide immediate and effective first aid to children or adults
- Apply additional first aid if the condition does not improve

'First aid can reduce the severity of an injury or illness and in extreme cases, could mean the difference between life and death.' (Safe Work Australia).

1.3 Background

The Education and Care Services National Regulations requires approved providers to ensure services have policies and procedures in place for administration of first aid.

1.4 Scope

This policy applies to children, families, staff, educators, management, approved provider, nominated supervisor and visitors of the OSHC Service.

1.5 Legislation & Standards

QUALITY AREA 2: Children's health and safety		
2.1.1	Wellbeing and Comfort	Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation.
2.1.2	Health practices and procedures	Effective illness and injury management and hygiene practices are promoted and implemented.
2.2	Safety	Each child is protected.
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard.
2.2.2	Incident and emergency management	Plans to effectively manage incidents and emergencies are developed in consultation with relevant authorities, practiced and implemented.

EDUCATION AND CARE SERVICES NATIONAL REGULATIONS	
12	Meaning of serious incident
85	Incident, injury, trauma and illness policies and procedures
86	Notification to parents of incident, injury, trauma and illness
87	Incident, injury, trauma and illness record
88	Infectious diseases
89	First aid kits
90	Medical conditions policy
92	Medication record
93	Administration of medication
94	Exception to authorisation requirement-anaphylaxis or asthma emergency
97	Emergency and evacuation procedures
101	Conduct a risk assessment for excursions
102C	Conduct a risk assessment for transporting of children by the education and care service
136	First aid qualifications
137	Approval of qualifications
161	Authorisations to be kept in enrolment record
162	Health information to be kept in enrolment record
168	Education and care service must have policies and procedures
(2)(a)(iv)	
170	Policies and procedures to be followed
171	Policies and procedures to be kept available
174	Prescribed information to be notified to Regulatory Authority
175	Prescribed information to be notified to Regulatory Authority
176	Time to notify certain information to Regulatory Authority
183	Storage of records and other documents

Care Quality Authority	regulatory authorities to administer the National Quality Framework, including the provision of guidance, resources and services to support the sector to improve outcomes for children.	

2. Procedure

2.1 Implementation

First aid is the emergency aid or treatment given to persons suffering illness or injury following an accident and prior to obtaining professional medical services if required. It includes emergency treatment, maintenance of records, dressing of minor injuries, recognition and reporting of health hazards, and participation in safety programs. Legislation that governs the operation of approved children’s services is based on the health, safety and welfare of children, and requires that children are protected from hazards and harm.

Incident, injuries trauma or illness

Any incidents, injuries trauma or illness, including first aid provided, must be recorded and include the following details, as per Education and Care Services National Regulation 87:

- name and age of the child
- circumstances leading to the incident, injury, trauma, or illness (including any symptoms)
- time and date
- details of action taken by the OSHC Service including any medication administered, first aid provided or
- medical personnel contacted
- details of any witnesses
- names of any person the service notified or attempted to notify, and the time and date of this
- signature of the person making the entry, and time and date of this.

FIRST AID KIT

The Approved Provider of the Service will ensure that first aid kits are kept in accordance with National Education and Care Service Regulations (Reg. 89).

All first aid kits at the service must:

- be suitably equipped
- not be locked
- not contain paracetamol
- be suitable for the number of employees and children and sufficient for the immediate treatment of injuries at the Service
- be easily accessible to staff and educators
- be constructed of resistant material, be dustproof and of sufficient size to adequately store the required contents
- be capable of being sealed and preferably be fitted with a carrying handle as well as have internal compartments
- contain a list of the contents of the kit
- be regularly checked using the First Aid Kit Checklist to ensure the contents are as listed and have not degraded or expired
- have a white cross on a green background with the words 'First Aid' prominently displayed on the outside
- be easily recognisable
- be easy to access and if applicable, located where there is a risk of injury occurring
- display a photograph of the first aid trained educators, along with contact details to assist in the identification process
- be provided on each floor of a multi-level workplace
- be provided in each work vehicle
- be stocked with precautionary items such as sunscreen and water if using outdoors
- be taken on excursions
- be maintained in proper condition and the contents restocked as required.

Our First Aid delegated individual responsible for maintaining all First Aid kits at the OSHC Service is:

FIRST AID OFFICER	
Name:	
Role:	
Number of First Aid Kits Responsible for at the Service:	
Additional First Aid Officer:	

These individuals are responsible for conducting and maintaining each first aid kit by complying with the First Aid Checklist, certifying each kit has the required quantities, items are within their expiry dates, and sterile products are sealed. This will occur after each use or if unused, at least annually.

Individuals along with the Nominated Supervisor will also consider whether the first aid kits and components are appropriate and effective for the Service's hazards and the injuries that have occurred. If the kit requires additional resources, these individuals will advise and follow up with the Nominated Supervisor.

Our Service will display a well-recognised, standardised first aid sign to assist in easily locating first aid kits. Signage will comply with AS 1319:1994 – Safety Signs for the Occupational Environment.

First Aid Kit Checklist

Our Service will use the checklist located on the staff intranet. The checklist will be completed quarterly to ensure first aid kits are equipped and maintained. Safe Work Australia’s First Aid in the Workplace Code of Practice also provides a guide to what to include in a First Aid Kit.

We will determine the need for additional items to those in the checklist, or whether some items are unnecessary, after analysing the number of children at our OSHC Service and what injuries children or adults may incur. We will review our incident, injury, trauma and illness records to assist us in making an informed decision about what to include.

For further advice on first aid in the workplace, refer to the following website for state and territory specifications.

3. Policy & Procedure Review

In order to assess whether the values and purposes of the policy and procedure have been achieved, Yooralla will:

- Regularly seek feedback from educators, staff, parents/guardians, children, management and all affected by the policy regarding its effectiveness
- Monitor the implementation, compliance, complaints and incidents in relation to this policy.
- Keep the policy up to date with current legislation, research, policy and best practice.
- Revise the policy and procedures as part of the service’s policy review cycle, or as required.
- Notify all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (Regulation 172 (2)).

The ongoing monitoring and compliance to this policy and procedure will be overseen by the OSHC Manager, Nominated Supervisor and Yooralla Quality, Risk and Safeguarding team.

All Yooralla OSHC policies and procedures will be reviewed every 12 months.
